BUILDING & LEADING TEAMS

We know that building & leading an effective team is an important step in enabling individual & collective success. This course explores how middle leaders can create cohesive & collaborative teams that are focused on student learning.

The course draws on the extensive body of literature & research in order to identify what is most useful, practical & productive in leading teams. Teachers & administrators are by definition expected to be leaders.

Participants leave the course with a clear understanding of how to build a high functioning team in order to transform learning.

KEY QUESTIONS

What are some characteristics of a highly functioning team?

INSPIRING & SUSTAINING DEIJ BREAKTHROUGHS

In recent years, we have been witnessing a global awakening to a call for a more intentional focus on diversity, equity, inclusion, & justice (DEIJ).

In the wake of the outcries for racial justice which reverberated around the world, many institutions indicated an intent to become places where those within their care can thrive with all aspects of their identity celebrated. However, international education continues to face significant challenges in creating lasting systemic change.

Middle Leaders are often at the forefront of observing & experiencing the myriad of inequities that exist, such as the lack of affirmation of certain student identities within the school culture & curriculum, staffing barriers relative to educator backgrounds, & more. How might we equip ourselves & our institutions to break through these challenges? Join this course to explore these themes & co-create actions that lead to breakthroughs which will enable yourself, your institutions, & the international education community to flourish.

KEY QUESTIONS

What systemic inequities do our fears protect & how can we interrupt them?
